THORNHAM DELI

Cromer beach with its victorian pier is probably the best beach if you want to try a bit of surfing, with a wide sand and shingle beach popular for swimming and surfing. Located within the Norfolk Coast AONB, the sandy beach faces the North Sea and is occasionally affected by storms during winter. Beach facilities are good with toilets, shops, food stands and a slipway. The 70m high cliffs support Cromer Lighthouse and are rich in fossils dating back to the Pleistocene era. Beach parking is available at the cliff top car park. From there, access to the beach is fairly steep but there is a lift connecting the town with the promenade and beach.

HOLKHAM HALL CAFE

This beautiful, modern, spacious and airy Café is a favourite of ours and serves a selection of hot and cold food through the day. A great selection of cakes and sweet treats are on offer too and too pricey either.

This is the ideal spot for a rainy afternoon reading a book or magazine or playing travel games with the kids. The mixture of relaxed dining or cosy soft bean bags and sofas is lovely and offers up lots of options, whilst the artwork and collections of farming curiosities adorning the walls just add to the experience. Well worth a visit especially if it is just a quick break from chasing the kids around the woodland play area.

THE JOLLY SAILORS - BRANCASTER STAITHE

Located on the coast road in Brancaster Staithe - The Jolly Sailors is a favourite with locals and visitors to the area. During the summer months it will be swamped with sailors having finished racing or sailing in the harbour.

A family orientated pub with home cooked wholesome food, great pub classics including Jolly Smokehouse specials, local seafood, stone baked pizzas and ice cream from a garden beach hut (and not forgetting the largest selection of rum on the coast!).
